European and international target

TOR VERGATA
UNIVERSITÀ DEGLI STUDI DI ROMA
Sustainable Development Office

“We are turning words into action today, to show our European citizens that we are serious about reaching net-zero greenhouse gas emissions by 2050. The European Climate Law is also a message to our international partners that this is the year to raise global ambition together, in the pursuit of our shared Paris Agreement goals. The Climate Law will ensure we stay focused and disciplined, remain on the right track and are accountable for delivery.”

Executive Vice-President for the European Green Deal
Frans Timmermans

European Council reached an agreement on the 2030 goal:

a 55% reduction in greenhouse gas emissions by 2030 compared to 1990 levels.

€100 billion in investments over the period 2021-2027

- The ecological transition and digitalization, this is the key.
- Wind energy
- Solar energy
- Hydrogen

**1 CONSIGLI "GREEN"
DELL'UFFICIO PER LO SVILUPPO SOSTENIBILE
COME UTILIZZARE CORRETTAMENTE LA MASCHERINA**

Le mascherine monouso filtrano
l'aerosol emesso maggiormente
rispetto a quelle in cotone

Non indossare
la stessa mascherina chirurgica
per oltre 6 ore

Le mascherine di stoffa
sono riutilizzabili
ma non ad infinitum

realizzato in collaborazione con la Prof.ssa Fabiana Ardiani

#torvergatasostenibile

**1 CONSIGLI "GREEN"
DELL'UFFICIO PER LO SVILUPPO SOSTENIBILE
COME LEGGERE L'ETICHETTA DEGLI ALIMENTI**

Consulta con attenzione
l'etichetta dei prodotti

Non buttare il cibo se la data
supera quella indicata nella dicitura
"da consumare preferibilmente entro"

Con queste indicazioni gli alimenti
non devono essere eliminati
ma valutati volta per volta

realizzato in collaborazione con il Prof. Alessio D'Amato

#torvergatasostenibile

**1 CONSIGLI "GREEN"
DELL'UFFICIO PER LO SVILUPPO SOSTENIBILE
COME LIMITARE L'USO DEL VOLUME DI PLASTICA**

Prediligi alimenti con imballaggi sostenibili
ed evita confezionamenti superflui

Acquista detersivi alla spina

Utilizza borracce in acciaio o alluminio
e bevi acqua del rubinetto, quando possibile

realizzato in collaborazione con la Prof.ssa Emanuela Gatta

Project G.O.C.C.I.A

“Goal One for Climate Change in University”

TOR VERGATA
UNIVERSITÀ DEGLI STUDI DI ROMA
Sustainable Development Office

University of Rome Tor Vergata, in line with its vision and mission is committed to guaranteeing a reduction in the use of plastics. From the idea of a Project work of Master MARIS, the G.O.C.C.I.A. project was born. In addition to reducing consumption of plastic bottles, this project aims to provide students and university staff with quality drinking water.

“If there is magic on this planet, it is contained in water.”
Loren Eiseley

- Reduction of 1.000.000 of plastic bottles
- Reduction of 16.000 Kg of plastic
- Reduction of 108.000 Kg CO₂

In addition to reducing the consumption of plastic bottles, the project aims to provide students and university staff with quality drinking water.

“When you sit with a nice girl for two hours you think it’s only a minute, but when you sit on a hot stove for a minute you think it’s two hours...”
Albert Einstein

The project S.E.D.I.A. or "Solar charging station with outdoor bench" comes from an idea of two master’s students.

The idea stems from the need to provide the many outdoor spaces with equipped rest areas.

The structure is powered by **photovoltaic panels** that provide power to six USB ports and four wireless Qi chargers.

In addition, they will soon be equipped with QR codes that link to the UN targets.
